

Law Firm of the Year - Sweden

Winner:

Stefan Erhag
Managing Partner

Delphi has expert knowledge in all areas of commercial law, an important part of which is Corporate Finance, with a large amount of domestic and cross border mergers & acquisitions and extensive Private Equity, Banking & Finance, Capital Markets and Corporate & Debt Recovery practices. The firm has also distinguished itself particularly within high-technology oriented legal areas such as IT/IP, Telecom, Media, Outsourcing and Life Sciences.

In 2007 and 2008 Delphi strengthened its practice in M&A and private equity by the recruitment of transaction specialist David Aversten and Anders Lindström specialising in private equity fund formation and transactions. Per Berglöf heads a strong corporate finance team which, in addition to the above, encompasses several up-coming partners such as Per Granström, Per Lagerkvist and Stefan Erhag (Managing Partner).

Delphi also recently strengthened its litigation practice through the arrival of Olof Rågmark from White & Case. All in all Delphi has approximately 120 lawyers which

secures a position among the top firms in Sweden.

Despite the current financial turmoil Delphi is off to a strong start for 2009 and has – although the firm continuously receives new M&A-assignments – seen a shift towards assignments driven by the financial crisis. Delphi was one of the first Swedish law firms to set up a Corporate & Debt Recovery Group combining the strengths of lawyers with experience from corporate and transactional work, financing, insolvency and litigation. Delphi already advises on a number cases relating to corporate and financial restructuring, renegotiation of covenants with debt providers, debt-buy back and minimizing exposure from securities gone bad due to the collapse of international financial institutions.

Many of the lawyers within Delphi's Corporate & Debt Recovery Group are seasoned lawyers with experience from previous financial crises. Delphi is well prepared to advise clients and add value in the current market and have Corporate & Debt Recovery teams ready to be deployed. **ACQ**
